FCC Mail Room

Attention: Supervisors

We would like to comment upon the recent suggestion that certain cable companies are intending to cancel RFD.TV in some areas. America has become so obsessed by Hollywood, New York and other 'BIG CITIES', EXECUTIVES often forget this country was not formed by people who wore fancy clothes and had big pocketbooks, but by hard working farmers, Ranchers and laborers. The trash that is piped into today's living rooms by most cable Networks would shame our forefathers.

One cable network has proven to present programming that is fit for family viewing. That is RFDTV and RuralNet. Both of these cable programs schedule shows that are entertaining, educational, enjoyable, and non-violent. Today's youth need to learn that their food doesn't just appear in the grocery store. Watching the farm and ranch children show their livestock, compete at rodeos and livestock shows is an important part of the American Heritage. Please use your offices to ensure that the upcoming "Take-overs" and mergers do not destroy an important part of America's "freedom". There is no other cable program system that offers this type of entertainment, and yet it is being threatened. Is it because RFD is a small independent market? – and the "Big Boys" can't control it, or they can't handle the competition?

Sincerely,

  
Keith & Ruth Hanchett
